

Heavy Duty Equipment Technicians (HDET) / Mobile Mechanics

Why Vale?

Be a part of the largest mining company in the Americas and one of the largest in the world with operations in more than 30 countries. At Vale, we strive to be the number one global natural resources company in creating long term value, through excellence and passion for people and the planet.

Vale's Sudbury Operations have existed for more than 100 years. With a focus on nickel and copper production the 4,000-person operation is Vale's largest Canadian site. In total, Vale has five mines, a mill, a smelter and a refinery in Sudbury, making it one of the largest integrated mining operations on the globe. We are privileged to operate in the territory of the Robinson Huron Treaty and homeland of the Métis.

Difference Makes All the Difference

At Vale, we are committed to an inclusive environment where people feel comfortable to be themselves. Encouraging everyone to express ideas and opinions and valuing the plurality of profiles. We want our people to feel that all voices are heard, all cultures respected and that a variety of perspectives are not only welcome – they are essential to our success. We treat each other fairly and with dignity regardless of race, gender, nationality, ethnic origin, religion, age, sexual orientation or anything else that makes us different.

We are seeking to increase the diversity across our operations in order to improve equal opportunity outcomes for our employees and encourage female applicants to apply.

About the role:

Although previous experience in mining or a heavy industrial setting is ideal, we also appreciate that diversity of thought comes from our differences – and that's what makes us great. If you value safety and risk management and make it a priority just as we do, if you are motivated to work collaboratively in a team environment, if you are interested in working at any of our surface or mining operations in the Greater Sudbury area, read on!

Education & Experience:

Fully Licensed Tradesperson

- Trade Certification: An inter-Provincial Red Seal (Certificate of Qualification) as a Heavy Duty Equipment Technician. Candidates who have an inter-Provincial Red Seal (Certificate of Qualification) as a Truck and Coach or Automotive Technician may also be considered.
- Experience: 4 or more years of industrial experience is preferred. This includes experience with:
 - 24 VDC wiring/control systems
 - Air and liquid cooled, DPU controlled diesel engines
 - Differentials and torque converters
 - Complex electrical and radio remote control systems
 - Maintenance of hydraulic systems on mobile equipment
 - Braking systems on large mobile equipment
 - Maintenance and power transmission systems on large diesel equipment

Apprentice

- Education: Heavy Duty Equipment Technician college diploma is preferred. Candidates with a Truck and Coach or Automotive Technician college diploma may also be considered.
- Experience: 6 months or more of industrial experience is preferred.

Requirements & Accountabilities:

- Follow Vale's Safety Policies, Programs and Legislative Standards
- The role will require shift work (rotating days and nights)
- Ability to work with minimal supervision and work well with others in a team environment
- Written and oral communication skills
- Must be obsessed with safety and risk
- Demonstrate open and transparent dialogue in all aspects of work

About Applying:

- Apply by visiting valejobs.ca or by clicking Apply below.
- Please attach a copy of your trade certificate (if applicable).
- We appreciate your interest in being a part of the team though only those applicants who are selected for interviews will be contacted.
- Vale is an equal opportunity employer. In accordance with the Accessibility for Ontarians with Disabilities Act, accommodation is available throughout our recruitment process for applicants with disabilities.
